

ITIL® 4 Foundation - English

Knowledge guaranty: 12 months

Exam-ID: ITIL 4 Foundation

Seminar-ID: ILFN4en

Your key takeaways

ITIL 4 enables your organisation to use best practices around service management while implementing the latest concepts in IT and also answering crucial questions, like:

- How do we create value for the customer and for the IT?
- What is the role of IT and IT services in a business strategy? Which role should it be?
- How can we support our organisation on their way to digital transformation?
- How do I link - if I want to - service management with new methods of working like Lean, Agile, DevOps, etc.

These and many other interesting questions are clarified and answered in our ITIL 4 courses, where you will find that our trainers put a major emphasis on enhancing the theoretical knowledge with examples of practical application. This should allow you as a user of the method to have a better understanding of ITIL.

The course includes the ITIL 4 Foundation exam, a certificate which not only proves your knowledge but becomes the basis for any future advanced trainings in that area.

What is your benefit of booking an ITIL training with us?

- Our lead trainer was and is actively involved in the development of ITIL 4.
- Our lead trainer is Austria's first ITIL 4 Managing Professional.

- Responsible roles for business processes, as well as,
- All IT employees

Prior knowledge

For our ITIL 4 Foundation Plus training it is useful but not needed to have an understanding of IT and/or IT service management.

The training has been set up so that it is interesting for both starters with no previous as well as experienced experts.

Important information

The exam fee of EUR 510,- is included in the course price.

This includes the official ITIL Exam. Of course, the official ITIL seminar document is also included in the course.
